Open questions:

10.	What did you like particularly in this subject?	3	Open question	42.86
10.1	Great lecture. Always very cutting edge in subject matter, and the class discussions were awesome.			
10.2	I liked the entire subject! It really opened my eyes to the game designer's world and completely destroyed how I thought games were designed, which was fantastic and thought-provoking.			
10.3	This was a fun subject that wasn't solely based on computer games, which I thought was good. I felt it was helpful to learn about the design process before building a computer game.			
11.	Please suggest any improvements that could be made to this subject.	2	Open question	28.57
11.1	None! This subject is perfect just the way it is, keep up the interesting videos in the tutorials too.			
11.2	I don't feel that there is enough time for the assessments in this subject. All three of them, particularly the last two felt very rushed, and I think that with more time, I could have produced a significantly better game for assignment 3.
