### Open questions:

7. What were the best aspects of your tutor's teaching?	2	Open question	40
7.1 simple explanations. dedication.			
7.2 The lab assistant did a better job at helping me understand the subject than the tutor did.			
8. What improvements would you suggest for the tutor's teaching?	3	Open question	60
8.1 maybe encourage people to ask more.			
8.2 Future assignment specifications should be clear and concise and clarify any particulars such as whether or not page limitations include reference lists. In cases of assignments involving reports, the desired report structure needs to be clearly stated.			
8.3 I obtained little benefit from the lab sessions. I could gather very little from the lectures, and with my very limited understanding of the subject content did not feel comfortable asking questions. This is the first and only subject that has ever made me feel genuinely stupid. A serious review of the manner in which teaching is conducted in this subject is required.
