Open questions:

7.	What were the best aspects of your tutor's teaching?	7	Open question	53.85
7.1	Steven is a great teacher, he explained everything in detail and talked about relevant and interesting information in the animation industry.			
7.2	His passion, that he doesn't insult our intelligence, that he demonstrates things physically, that he cares enough to remove other people from the class when they are being disruptive. He overall has an assertive and passionate way of teaching which I have enjoyed.			
7.3	tutor's knowledge			
7.4	It seems that the tutor has a real good working experience with MAYA.			
7.5	He is clearly passionate about Maya!			
7.6	Knows the subject inside and out, is happy stay back and give us the time to ask questions after the lesson. Seems to enjoy the subject.			
7.7	Follow through step by step of creating 3D Animation.

8.	What improvements would you suggest for the tutor's teaching?	7	Open question	53.85
8.1	None that I can think of, however the class could be improved by allowing another hour as Steven has a great deal of content to cover in 3 hours.			
8.2	Perhaps there needs to be someone supplementing Steven to run around and clarify little things that come up so as to not interrupt the flow of Steven's class, but to assist those people who have missed a small step that tends to affect the rest of the animation. It would require a smaller room if this was to work too.			
8.3	I would like the tutor noticed that student is asking for help by raising his hand (as I did and did not get help) and would be able to help those students who are sitting in back not only who are sitting close to him. I would like also the teacher would be a bit slower so all student could follow and won't feel lost at the class.			
8.4	sometimes moves too fast for me to keep up, trying to watch his screen and work on my own at the same time			
8.5	A second teacher/teacher's aid would have been helpful.			
8.6	I realise the amount of work to cover is large, so I'm not sure that it can be slowed down, it may be worth having more classes to cover it. It may also be that the teacher speaks fast and is hyper that makes everything feel rushed, when it otherwise mightn't be. Could say 'umm' less.			
8.7	Please send a complete tutorial note for every lesson in PDF files, so that students are able to look at it and allows them to follow easily.
