**Open questions:**

13.	What did you like particularly in this subject?	3	Open question	30
13.1	I liked seeing the completed project. However it was not what I expected. You pretty much had to teach yourself which was extremely disappointing.			
13.2	The content and the fun factor of this subject			
13.3	Very interesting lecture. It was a great experience			
14.	Please suggest any improvements that could be made to this subject.	2	Open question	20
14.1	The class was too big and had too many different levels of learning in their which made it difficult to teach. There were undergraduates, postgraduates and masters students. To be able to teach that effectively is pretty close to impossible. It needed to be made clear from the beginning that Jimmy was available to students as a payed tutor and there would not be a conflict of interest. This would have helped on many occassions to actually learn the program and retain knowledge, not just learn it to pass the subject.			
14.2	The teacher was too fast with the hotkeys and menus while showing how to use Maya. Hard to follow him if its your first time with this software.
